

膠殼式自動蓋印機 LIAM-250

Automatic Printing Machine For Capsule (Boxes) Capacitor

優點:

1. 本機為針對膠殼式電容產品上 Mark 的需求而開發設計.
2. 支援 帶腳式及空殼式兩種膠殼.
3. 採用橡皮字版 印出的字體不但清晰而且細膩.
4. 採用快速移印技術及快速 UV 烘乾技術 一次完成印刷工作,效率佳.

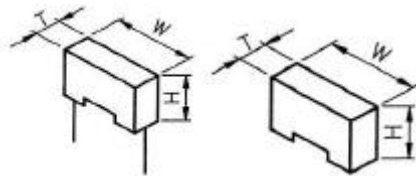

生產速度:

| 腳距 (mm) | 每分鐘(只) |
|---------|--------|
| 10 | 110 |
| 15 | 105 |
| 22.5 | 84 |
| 27.5 | 63 |

電源: 220VAC, 1 phase 1.5Watts

氣壓: 5Kgs

重量: 600Kgs

膠殼尺寸:

Capsule size:

| 單位 | Size (mm) | W | T | H |
|----|-----------|----|----|----|
| 最小 | Min | 13 | 5 | 9 |
| 最大 | Max | 37 | 14 | 25 |

Advantage:

1. LIAM-250 was developed for aims at capsule type capacitor printing demand.
2. Support both lead wire capsules capacitor and not lead capsules capacitor.
3. Pad printing, provides fine quality character prints it is clear to analyze, moreover is exquisite.
4. Pad printing plus UV drying technology that complete all print job at one time, It is very efficient.

Speed:

| Pitch (mm) | Piece Per minute |
|------------|------------------|
| 10 | 110 |
| 15 | 105 |
| 22.5 | 84 |
| 27.5 | 63 |

Power: 220VAC, 1 phase 1.5Watts

Pneumatic pressure: 5Kgs

Total weight: 600kg
